	Quality management and food safety system policy	Pages : 01

FEEDCOM company has decided to set up a food safety management system in accordance with the requirements of **ISO 22000-2018** standard and a quality management system in accordance with the requirements of **ISO 9001- 2015** standard.

This system applies to the activity of producing vitamin mineral supplements, and Premix, for animal feed (Broiler, Laying hen, Ruminant, Turkey, Equine, Rabbit).

This system aims to:

- Guarantee the safety of premixes.
- Provide a compliant product.
- Improve customer satisfaction.
- Improve the competence of staff.
- Improve performance and management methods.
- Set up a continuous improvement approach to the system.
- Ensure interactive communication between the company and the outside (interested party: competent authority, supplier, customers, service providers...) and internally (between management and the various departments).

This communication is carried out mainly through meetings, electronic mail, postings, etc.

To achieve these objectives, Management is committed to providing all the resources necessary to ensure the proper approach of the food safety and Quality Management system, as well as their continuous improvement.
